

Compare and Contrast the two portraits of Elizabeth I

Learning objectives for KS1 and KS2

- To compare and contrast two portraits and photos of teachers and/or pupils at different ages
- To order the portraits according to age

This session can be delivered in 1/2 hour

In order to engage your pupils and for them to understand that these portraits are of the same person, we would suggest using the following activities:

- Ask your pupils to bring in a photo of themselves when they were a baby and a recent photo. Ask your pupils about the similarities and differences
- Look at photos of a teacher or parent when younger and compare their appearance now
