

# SIR LENNY HENRY

(Born 1958), Comedian and actor

Lenny is a comedian, writer, presenter and actor. Here he is, leaping into the air, capturing his sense of fun.

Lenny's parents were from Jamaica and moved to England before he was born. He didn't always have an easy time when

he was growing up and suffered racism at school.

Lenny is passionate about equality. As one of the first popular Black actors in the UK, he has led the way for others.

Lenny came up with the idea of Red Nose Day with his friend, the director Richard Curtis.

It's a fundraising campaign set up by the charity Comic Relief to end child poverty. Every year you can buy a red nose or do something

fun to raise money to help keep children safe, healthy and educated. Design your own red nose. Can you make a new, funny character to wear on Red Nose Day?
